The same scale of charges will apply to all goods, other than iron and steel and timber stored in the iron and timber yards respectively, awaiting transshipment in the Trust's premises, except that for each goods the specific charges, when quoted, will be ruled. In the case of iron and steel and timber stored in the iron and timber yards respectively, the rates of transshipment will be the full rates currently charged in these two yards on the aforementioned goods. 22 **PAYMENT OF DAMAGES.**—The following are the rules regulating the basis on which the Trust will pay claims for the loss or destruction of goods for which it has become liable under the Madras Port Trust Act:—

26. **QUAY TRUCKS.**—Non-passenger accompanying bona fide third-class passengers embarking from, or unloading to land freight loading at, the Port of Sydney, will be charged at the rate of four shillings per load for access to quays at loading steps. PART II (B).—STATEMENT OF RECEIPTS WHICH THE TRUST MAY ENTER TO THE FURNISH OF THE CASE OF GOODS RECEIVED AND COMPILED BY RAIL AND OF THE COMMISSION AND CHARGES ATTACHED THEREON.

1. **THE TRUST'S RESPONSIBILITY FOR GOODS RECEIVED AND FURNISHED BY RAILWAY WAGONS.**—(a) *Responsibility for outside goods.*—The responsibility of the carrying Railway and of the Trust for the safe receipt and delivery of goods consigned to the harbour quays by railway wagons will cease (i) when the railway receipt has been surrendered and railway freight has been paid in the case of goods consigned in the general shed, (ii) when wharfage, as laid down in clause 11 below, has been received, or (iii) when the goods have been introduced on to a vessel (jetty or barge) or into a shed leased to a merchant, subject to the last case to such damage, shortage and deterioration as may be sustained while in the course of unloading the wagons. If the owner of outside rail-borne goods wish to transfer their goods to the Trust for custody under the Harbour Port Trust Act II of 1905, as amended by Act II of 1912, after the surrender of the carrying Railway's receipt, they must comply with the conditions laid down in clause 1 (d), Part I (A) of this order.

(b) *Responsibility for outside goods.*—No responsibility will be accepted by the Trust for goods intended for dispatch by rail out of the harbour wharf and until (i) such goods have been stored in a warehouse and in a position paid out by an officer not less than a section master and (ii) a receipted bill of lading has been accepted for them by the Trust. Should there be a discrepancy in weight, which arises may be used, must be signed by the sender or sender or in the case of loss, and must contain a declaration of the weight, description and destination of the goods. The Trust's goods clerk must have reasonable demand from consignee or consignee a written description of their goods, as required by the neighbouring Railway under section 54 of the Railway Act IX of 1905.

(c) *Trust not responsible for goods under cover or under seal.*—The Trust, acting as warehouse, will not be responsible for the loss of or damage to goods, if they

(i) are not properly, accurately, or sufficiently packed, marked, branded or described;

(ii) contain articles liable to break or damage in the course;

(iii) are liable to deterioration, or to leakage owing from bad make, bad contents, bad stowage or defective packing in the course;

(iv) suffer accidental or avoidable delays in transit or otherwise; and

(v) are damaged by the act of God, fire, the King's enemies or civil commotion.

2. **RESPONSIBILITY WHICH MUST BE UNDERTAKEN BY AND LADDER INTO WAGONS BY OTHERS.**—The following classes of goods must be unloaded from and loaded into wagons by others and if not loaded in the neighbouring railway yards as having to be unloaded or loaded by others. But the Trust reserves to itself the right to unload or load goods which the owner has to, but fails to, unload or load within the working hours of the wagons having been placed in position. In all cases in which the obligation of loading or unloading falls on owners of goods, the risk attending their operations must be borne by the owners whether such loading or unloading is done by them or by the Trust:—

(i) goods consigned from and to the air line stations;

(ii) goods unloaded where loaded from a warehouse or on to or from a place of land leased to a merchant;

(iii) the consigned articles noted in Part II (B) of the order which the Trust does not handle.

3. **DISCREPANCY QUANTITIES.**—Discrepancy goods will not be permitted to be consigned to Harbour wharves. The following are defined to be discrepancy goods: (i) over and under; (ii) loose, loose or short; (iii) excess of bulk weight; (iv) surplus; (v) high and (vi) any shortage of weight or quantity.

4. **NOTICE OF ARRIVAL OF GOODS.**—The Trust does not undertake to receive a notice of arrival of goods as a receipt, and the non-receipt of such notice does not entitle the consignee to exemption from wharfage or demurrage charges.

5. **RAILWAY RECEIPT TO BE GIVEN OR.**—The railway receipt must be duly endorsed by the consignee and surrendered to the Trust before goods can be delivered. When a railway receipt is lost or for some other reason is not forthcoming, the Trust reserves to itself the right to demand an indemnity bond before giving delivery of the goods concerned. The Trust will not accept railway receipts introduced or delivered in any way.

6. **POST TRUST DUES APPLICABLE TO FREIGHT PASSENGER OR FREIGHT.**—The third goods clerk is authorized to demand and receive payment of freight for the acceptance of any article by rail and also the charges incidental thereon. The public are authorized against paying any charges in any position other than the clerk appointed to receive money in the goods office.

7. **PAID FOR DELIVERY OR A RECEIPT.**—A receipt is not available for delivery or is damaged. If it does not take delivery of that part of a consignment which is available for delivery, the goods will remain in the harbour premises until it has been and subject to the usual wharfage or demurrage rules.

will be handled by the Trust, on behalf of the owner, at the rate of 2s. 6d. per vehicle for each forward or return loaded trip; but the Trust will accept no responsibility for the loss of or damage to the contents of such loaded vehicles.

19. **Harbour Goods and Storage.**—Excepting goods consigned to the Trust and goods stored in a warehouse leased by the Trust to a shipper but not sold, all goods entering the harbour premises by rail, whether shipped or not, are liable for harbour dues, except those stored in a warehouse in the harbour, and afterwards taken out of the harbour premises for re-exportation, will have to pay harbour dues before they are removed; but when such goods are again brought back for shipment after having been re-exported no further harbour dues will be recovered, provided the owner gives a written declaration to the Trust about the identity of the goods with those previously removed. Goods unpacked before being taken to the harbour premises will be treated as export cargo and will be liable for harbour dues and terminal charges.

20. **Other Conditions.**—All other conditions governing the acceptance of goods by rail will be found in the goods tariffs of the railway companies.

21. **Goods not going again to sea.**—The Port Trust is not prepared to, and ordinarily will not, receive, load or deliver goods tendered to it other than those entering or leaving the harbour by sea.

No. 269.—In exercise of the power conferred by section 1 of the Madras Irrigation Canal Act VII of 1905, as amended by Madras Act V of 1900 and Act III of 1912, His Excellency the Governor in Council directs that the following rules be substituted for the corresponding rules in Appendix A to Board's Standing Order No. 4.

Rule II, articles 8, 9, 10 and 11.—(1) Any cultivator of dry land may apply to the kharan not later than 15th January for a supply of water for the irrigation of wet crops on a survey field or subdivision of a survey field. Applications should be presented in triplicate in Form A, annexed to these rules. No application will be received for irrigation during the second crop season except in the case of lands the irrigation of which is generally prohibited. Printed forms of application may be obtained from kharans, revenue inspectors or talukdars. Applications are exempt from stamp duty.

Para (1) is the case of low lying lands before the 1st January in July, August or September, application for water for a first crop may be made up to 15th August.

Para (2)—Applicants on hill lands have second crop given during the January first crop season should be made by the 15th July.

Para (3)—The word "dry land" in this rule refers to the case of proprietary estates, but water is supplied to irrigated land and a kharan (khar) should be made in the kharan register for the purpose of charging land and a kharan (khar) should be made in the kharan register.

(2) The kharan should acknowledge each application, enter it in a register, verify the entries contained in columns 1-4 of the application and fill in the entries in regard to columns 5-8 thereof. He should retain one copy of each application and paste it into a file book maintained for the purpose. He should submit the other two copies of all applications to the Executive Engineer within three days after the latest date prescribed for the presentation thereof.

(3) The Executive Engineer shall maintain a register of applications. It is for him to decide whether an application should be rejected or should be sanctioned wholly or in part. In every case of rejection, he should record the reasons for his decision and return a copy of the application directed to the kharan, to whom he should also send a list of all rejected applications; the kharan should forward the copy of the rejected application to the applicant within three days of its receipt from the Executive Engineer and also publish in the village shahadi the list of rejected applications.

(4) In the case of applications which the Executive Engineer accepts, he should transmit both copies to the talukdar, with a complete list of villages and survey fields for which applications have been accepted. The talukdar should enter these applications in a register and should examine each case, in order to see whether any of the survey fields are prohibited or in which the prohibited village dry area or whether their cultivation or irrigation has been prohibited for any other reason. If the Executive Engineer has accepted an application in the case of a prohibited field, the talukdar should report his case for the action of the panchayat officer. The talukdar should send the kharan a list of cases in which applications have been accepted and it must be noted that no objection to such acceptance or copy of the grounds stated above; he should also submit a copy of the application for transmission to the applicant.

(5) The Executive Engineer's compliance of an application for water in respect of a field the irrigation of which is prohibited in any of the grounds indicated in the last preceding sub-paragraph is not absolute and is liable to be cancelled by the panchayat officer or the Collector, but no enhanced requirements should be imposed in such cases for water taken prior to the revocation of the Executive Engineer's sanction. It is also open to the Collector to grant water, when for some special reason he disagrees with an order of rejection passed by the Executive Engineer under sub-paragraph (3) above. Copies of orders passed under this sub-section by the Collector or by the panchayat officer should be communicated at once to the Executive Engineer.

(6) In cases in which an applicant receives an order on an application by the 15th June, permission to take water may be considered to have been granted and no enhanced water is to be charged for irrigation. This provision does not, however, exempt the talukdar from the necessity for making permission subsequently years.

(7) The registers maintained by the Executive Engineer, the talukdar and the kharan should show whether applications have been granted (wholly or in part) or refused. The kharan's register shall be open for inspection by villagers.

(8) When the Executive Engineer has sanctioned a supply of water under sub-paragraphs (2) and (4) above, no further application shall be necessary for the supply of water for the same survey field or subdivision, as the case may be, unless the applicant has expressly stated in his original application that water is only required for one khar.

(9) When land has once been irrigated with permission for a wet crop, it will, subject to the exceptions mentioned in paragraph (8) above, be liable to water-rate (water being available) until either the supply of water is stopped by the Executive Engineer under rule VII or a formal application for the discontinuance of the supply is made under paragraph 10 below.

(10) Cultivators of dry land who wish for the discontinuance of a supply of water should apply to the kharan not later than the 1st January. Applications should be presented in duplicate in Form B annexed to these rules. Printed forms of application may be obtained from kharans, revenue inspectors or talukdars.

CONTROL OF TRAFFIC ON RAILWAYS

The following regulations regarding traffic are published for general information.

From June 1st all traffic on railways will be divided into the following classes:—

I. Urgent—(a) Military.

(b) Civil.

II. Professional—(a) Railway.

(b) Civil.

III. Ordinary traffic.

Coal traffic and the Karachi Wheat traffic are excluded from the above classes and will continue to be dealt with as at present.

Blue certificates will be issued for urgent traffic and red certificates for professional traffic. Authorized officers dealing in military stores will issue the certificates for military goods and the Director of Civil Supplies in each province will issue certificates for civil goods. Blue certificates will only be issued for really urgent traffic and red certificates will be issued for necessary but not urgent traffic. A great deal of ordinary traffic is not necessary traffic, and in such cases no certificate will be issued and the goods must take their turn in getting wagons in the order in which the consignor registers their requests with the Stationmaster or the District Traffic Superintendent, after all the blue and red certificates are satisfied.

All applications for civil certificates must be sent to the Director of Civil Supplies, Revenue Secretariat, Fort St. George, Madras, and must contain the name and address of consignor, quantity, weight or number of bags of goods, description of goods, station from which and to which the goods are to be despatched, and in the case of foreign produce, the name of the Railway to which the traffic is intended. Applications not containing these particulars will either be disregarded or returned for further information.

The Director of Civil Supplies will forward the certificates issued by him to the General Traffic Manager at the District Traffic Superintendent's station, and will notify the applicant of the grant of the certificate. As soon as the consignor gets notice from the Superintendent of the wagon being available, he must bring his goods to the railway station and load up, failing which the certificate will be returned to the Director to be destroyed. Applicants who apply for wagons without having goods, or who sell or attempt to sell wagons allotted to them to other people, will be prosecuted, and so much traffic will be recognized. Nor will any application from such a man be again granted.

It will be open to Collectors to appoint Municipal and District Commissioners for the purpose of accelerating local business, whether exports or imports, during periods of time from seasons or extraordinary demands, and so on. The circumstances which such committees can be worked successfully will have to be laid by experience.

No application will be given for unnecessary cross traffic, e.g., for rice from Madras to Manipal, or from Manipal to Bangalore or from Bangalore to Tanjore, or from Bangalore to Bangalore, nor for wasteful traffic, e.g., Karpur and expressed cotton; not for goods traveling less than 10 miles. And when there is any special urgent civil demand, or for men from the east coast to Cochin or to Bombay, the Director may refuse to give any certificate for any other sort of traffic.

As a rule, blue certificates will be reserved (1) for food-grains urgently required on account of local shortages, (2) for commodities urgently required in any business or collection ranging, if engaged on work of national or military importance (including bank and raw cotton work under this category), and (3) for commodities which have to be moved urgently in ports in response to orders from Government departments in London.

Red certificates will usually be given for the above goods when not urgent, and also for necessary movements of grain, all acids and oil, medicines and spices, yarn and cloth goods.

But the issue of certificates is always limited by the number of wagons available, and by the demands made upon the railway for military purposes. Every consignor will be made to testify the most urgent demands of the public, but the Director of Civil Supplies will be anxious to ensure that when stock is not available for a great proportion of ordinary traffic, and the people should therefore control their demands as much as possible and they should especially obtain their goods from the nearest places where they are available.

L. B. WOOD,
Director of Civil Supplies.
